Mohammad Javad Gharagozloo

Web Developer - Web Penetration Tester

👤 Profile

I am a web application penetration testing specialist with full knowledge of web security concepts and identification of common vulnerabilities according to the OWASP Top 10. I have experience with security tools such as Burp Suite, OWASP ZAP, and Nmap, and I am capable of analyzing and exploiting vulnerabilities. I am proficient in manual and automated application testing, log analysis, and providing clear, detailed reports for the development team.
